Federal Unobligated or

Apportionment:

Amount apportioned to the state based on CMAQ distribution formula and Congressional appropriation. Northeastern Illinois is allocated 95.21% of the state

apportionment; however the full apportionment is used for a programming mark. FFY 2023 includes the unobligated balance from prior years, with funds currently in Advanced Construction not considered to be programmable since they may be converted at any time. FFY 2024-2027 apportionments are estimates based on the

current apportionment. See calculation below. Source: FHWA FMIS database

Currently Programmed:

Net amounts programmed on active project phases, not including obligated funds or phases in Advanced Construction in the current FFY.

Unprogrammed Balance:

For current FFY, unobligated less currently programmed, excluding deferred line items; for future years, apportionment less currently programmed.

This balance represents the funds that are available to program as of the current date.

Deferred Funds Not

Funds for project phases that have been deferred and have not demonstrated readiness for reinstatement.

Programmed:

Unprogrammed Balance

For current FFY, unobligated less currently programmed, including deferred line items; for future years, apportionment less currently programmed.

Minus Deferrals:

Obligation Goal:

Goals to obligate the apportioned amount plus the unobligated balance to achieve a zero unobligated balance.

Current FFY Obligations to Obligations (Federal Authorizations) as of the current date. Projects in Advanced Construction are not included as obligations.

Obligations Needed to

Obligation goal less current FFY obligations as of the current date.
