Regional STP Accounting Summary - October 2025

In order for all councils and the Shared Fund to be able to make the best active reprogramming choices, CMAP maintains an accounting of available, programmed, and obligated funds for the region. This accounting includes actual and projected redistribution of unobligated funds and the use of those funds by councils and shared fund projects. This accounting is updated continuously and published periodically.

Start of FFY: Represents the allotments, marks, programming, and unprogrammed balance at the beginnning of the Federal Fiscal Year (FFY). For redistribution, carryover reflects funds transfered at the end of the prior FFY.

Program Adjustments: Includes changes to programming due to active program management, such as cost changes and active reprogramming in different FFYs.

Marks Adjustments: Includes changes to available marks due to use of redistribution, obligation remainders, and expiration of funds. Planned use of redistribution is tentative, and shown in italics.

Obligations and Extensions: Accounting of the obligation of funds and funds associated with projects granted obligation deadline extensions.

End of FFY: Accounting of funds eligible to be carried over to the next FFY and those that are ineligible and will be transferred to redistribution.
