

## MEMORANDUM

**To:** Transportation Committee  
**From:** CMAP Staff  
**Date:** May 22, 2025  
**Subject:** Regional Capital Project Submissions for the 2026 RTP  
**Action Requested:** Information

---

---

On February 10, 2025, CMAP solicited Regional Capital Project (RCP) submissions for potential inclusion in the fiscally constrained 2026 Regional Transportation Plan (RTP). The request was sent via email to all Transportation Committee and RCP Resource Group members that represent an implementing agency.

A total of 162 projects were submitted, of which 132 have been identified as meeting the definition of an RCP and 30 were identified as programmatic priorities. This memo provides information on the submissions, including the projects advanced for evaluation and their fiscal impact.

### Submitted Projects

As of May 20, 2025, a total of 162 projects have been submitted for RCP evaluation. **Table 1** presents the total number of projects submitted by lead agency, as well as the number identified as either an RCP or programmatic priority. The submitted projects fall into the following three categories:

- **RCPs subject to evaluation:** Of the submitted projects, the CMAP team selected 111 for evaluation and potential prioritization in the RTP.
- **RCPs not subject to evaluation:** Another 21 projects meet the RCP criteria but already have committed funding and, thus, will proceed to the fiscally constrained list without evaluation.
- **Programmatic priorities:** The remaining 30 submittals are recommended for inclusion in the programmatic priorities portion of the RTP, which do not require evaluation or fiscal constraint.

The full list of RCPs is included in **Appendix A**.

**Table 1. Submitted projects with RCP status, by lead agency**

Lead agency	RCP		Programmatic priorities	Total Submitted Projects
	Evaluation required	Evaluation not required (committed funding)		
IDOT - District 1	47	7		54
CTA	22	1	17	40
Metra	12	1	5	18
CDOT	7	2	2	11
Will County	2	5		7
Illinois Tollway	4	3		7
Pace	6			6
McHenry County	4		2	6
IDOT - OIPI	2		2	4
IDOT - District 3	1	2		3
Orland Park	2			2
Cook County	1		1	2
Kane County	1			1
CMAP			1	1
<b>Total</b>	<b>111</b>	<b>21</b>	<b>30</b>	<b>162</b>

## Projects subject to evaluation

More than half of the projects selected for RCP evaluation (60 of 111) were included as RSPs in the previous long-range plan, the 2022 update to ON TO 2050 (**Table 2**). Two-thirds of these carryover projects (37) are capacity increases on existing network, including arterial add lanes, interstate add lanes, and transit line capacity increases. Ten are additions to the network, such as a new bus rapid transit (BRT) line, transit infill station, and interchange. The other 13 are state of good repair or modernization projects, including interstate reconstruction, intersection/interchange improvement, and station improvement. One of the station improvements is the Union Station modernization effort, referred to as the Chicago Hub Improvement Program.

Approximately one-third (17) of the new RCPs include changes to capacity on the existing network. Half (26) are additions to the network. The remaining eight are state of good repair or modernization projects.

**Table 2. Projects selected for RCP evaluation, by project type and 2022 RSP status**

Project type	2022 RSP	New	Total
<b>Capacity Increase</b>			
Arterial Add Lanes	18	13	31
Transit Capacity Increase	12	3	15
Interstate Add Lanes	7	1	8
<b>Network Addition</b>			
BRT or Bus Priority Corridor	7	6	13
New Transit Line or Extension	1	11	12
New Arterial		6	6
New Station	1	2	3
New Interchange	1	1	2
<b>State of Good Repair or Modernization</b>			
Interstate Reconstruction	8		8
Interchange/Intersection Improvement	4	4	8
Bridge Reconstruction		2	2
Transit Line or Station Modernization	1	2	3
<b>Total</b>	<b>60</b>	<b>51</b>	<b>111</b>

The proposed RCP projects are estimated to total more than \$72.1 billion.<sup>1</sup> The costs by project type are presented in **Table 3**. As shown in the last column, the estimated costs are provided for only 100 of proposed projects; cost estimates are not yet available for 11 of the projects. The projects that do not have cost estimates are largely illustrative projects that are not yet seeking fiscal constraint.

Most of the total costs come from projects that were also included in the previous plan (2022 RSPs), with newly submitted projects accounting for just 16 percent of the anticipated total cost.

State of good repair and modernization projects account for more than half of the total estimated costs, 52 percent. Most of these costs are for proposed interstate reconstruction projects. Capacity increases account for another 40 percent of proposed project costs, with these costs split fairly evenly between roadway and transit projects. The remaining 8 percent of the funding needs are for proposed network additions (**Figure 1**).

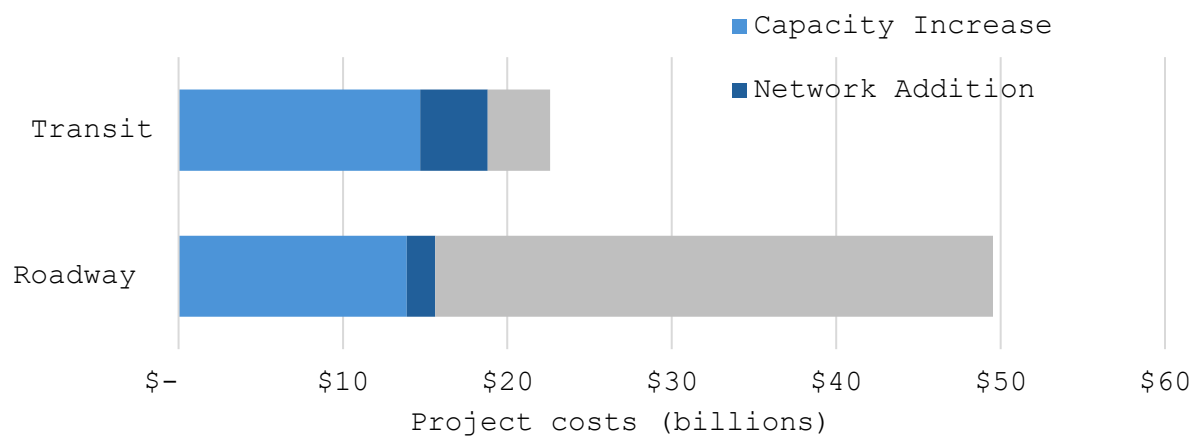

Roadway projects account for just over two-thirds of the total requested RCP costs, or 69 percent (**Figure 1**). Although transit projects account for a smaller proportion of costs, they account for most of the costs from newly submitted RCPs, 63 percent.

<sup>1</sup> Cost estimate years range from 2019 to 2032 and have not all been adjusted to 2025 dollars.

**Table 3. RCP project costs (billions), by project type and 2022 RSP status**

Project type	2022 RSP	New	Total	Projects without cost estimate
<b>Capacity Increase</b>				
Arterial Add Lanes	\$ 3.0	\$ 1.1	\$ 4.1	
Transit Capacity Increase	12.8	1.9	14.7	3
Interstate Add Lanes	9.8	0.03	9.8	
<b>Network Addition</b>				
BRT or Bus Priority Corridor	0.6	1.1	1.8	
New Transit Line or Extension	0.5	1.3	1.9	7
New Arterial	-	1.5	1.5
