Authorization to enter into a contract with Resultant in an amount not-to-exceed \$437,778 for RFP 285, data governance for data and information services

**ACTION REQUESTED:** Approval

**PURPOSE & ACTION:** CMAP is a major source of quality data for northeastern Illinois. As availability of data and data sharing opportunities increase, it is critical for CMAP to manage its data and develop a strategy of data governance that ensures accuracy, reliability, and security. Following a review of consultant responses and qualifications to the Request for Proposal (RFP), Resultant is the selected vendor for the project and support for this project will be provided with FY 2024 UWP funds.
