Roadway Safety Performance Targets for 2023

ACTION REQUESTED: Approval

Under federal law, State departments of transportation and MPOs are required to establish quantitative highway safety performance targets on an annual basis and use a set of performance measures to track progress toward the long-term goal of eliminating traffic related fatalities and serious injuries on all public roads. Request approval of the recommended 2023 targets and support for IDOT's 2023 Highway safety targets.
