Regional Climate Action Plan

ACTION REQUESTED: Discussion

PURPOSE & ACTION: CMAP and the Metropolitan Mayors Caucus have kicked off regional climate action planning work in response to and with funding support from the USEPA Climate Pollution Reduction grant program. The work is also supported by a grant from the Department of Energy Clean Energy to Communities (C2C) program, and includes a partnership with Oak Ridge National Laboratory, the Respiratory Health Association, and ComEd. Staff will discuss components of the Priority Climate Action Plan and lead a discussion about implementation priorities for Phase 2 of the USEPA's climate pollution reduction grant program.
